John

I am writing you today to encourage you to accept the Microsoft antitrust settlement. This issue has been drug out much more than necessary.

Microsoft has agreed to design future versions of Windows to be more effective for other companies software. They've also agreed to all other terms of the settlement.

Why is our court system punishing Microsoft? What are they afraid off?

Please accept this antitrust settlement, so our court system and Microsoft can get on with other more productive issues.

Thank you.
